EXPERIENCE

University of Pittsburgh – Pittsburgh, PA

Computer Lab Consultant   *(Fall – Spring) January 2014 – December 2015*

- Ensured lab computers and printers located throughout campus function correctly
- Assisted customers in the proper use of lab hardware and software
- Answered any general technology questions or concerns

Publicis North America – New York, NY

Freelance Experience Designer   *August 2015 – September 2015*

- Led the UX design of a website that raises awareness of a skin disease called Hidradenitis Suppurativa (HS)
- Updated sitemaps to include new web pages and improve comprehension
- Verified that mockups from the creative team conform to the latest wireframes

User Experience Design Intern   *June 2015 – August 2015*

- Began initial brainstorming and wireframing for the HS website
- Worked with strategists to maintain the content matrix
- Pitched a digital advertising campaign for Red Lobster with a team of fellow interns

Personal Website – dustinalper.com

Creator   *April 2013 – September 2015*

- Developed a responsive website that contains satirical blog posts and my design portfolio
- Designed a clean and elegant template inspired by the concept of a modern newspaper

A+E Television Networks – New York, NY

Information Technology Intern   *June 2014 – August 2014*

- Created wireframes for the search interface in a private company application using OmniGraffle
- Organized and conducted user tests to analyze the clients' search processes
- Built highly interactive and visual advertising sales dashboards in Tableau
- Developed a corporate contacts app for iOS and Android devices using HTML, CSS, and JavaScript

Tipstir – dustinalper.com/tip

Creator   *February 2012 – November 2013*

- Developed a tip calculator for Android and BlackBerry 10 using Visual Basic
- Designed a simple interface based on paper receipts

Camp Kennybrook – Monticello, NY

IT Specialist / Video Counselor   *(Summer) June 2010 – August 2013*

- Corrected technical issues in a nonconventional work environment
- Produced videos for the camp website and the end-of-year camp montage
- Accountable for the safety of boys from 7th-9th grade, twenty-four hours a day
